Dear «Firstname» «Lastname»,

Successfully completing your student loan rehabilitation program means you've earned back your access to key student loan benefits, as well as making a big step toward improving your credit. Don't let that accomplishment slip away by making mistakes with that newly rehabbed loan.

Here are four things you need to know so you can hold onto your success:

- Your loan has a new servicer (billing company) now. Look for a bill from «**Sample Servicer**» in the near future.
- That bill may be **a lot higher** than you expect. Don't panic! Contact «Sample Servicer» to sign up for [Income-Driven Repayment plans](#) that you can afford.
- It's also a good idea to set up automatic payments. You may even get your interest rate reduced if you do.
- If you can't make any payments at all right now, ask about [unused deferment and forbearance time](#).

If you have trouble making your payments and need help with your loans, ASA[®] is still available to help you. Visit our online financial resource, www.saltmoney.org, or contact us any time at **866.274.4481** or specialist@asa.org.
